***St. Augustine Towers Receives Perfect Score on State Survey  
by the State of Ohio***

CLEVELAND – St. Augustine Towers, the assisted living facility located on the St. Augustine Health Campus, again received a perfect survey from the Ohio Department of Health. Inspectors reported zero deficiencies upon completion of the 2009 inspection.

Towers Director, Brigid Nolan, credits the perfect survey to a staff dedicated to a high level of care centered on providing residents with the highest quality of life possible. “Everyone talks about how great their staff is, but we truly have the very best. They are committed to our Mission and more importantly to the residents we serve. This is evidenced through the longevity of our staff and our outstanding surveys each year.”

The Ohio Department of Health performs annual inspections of all health care facilities located in the state. The unannounced inspections cover all areas of health and safety, critically examining day-to-day operations of the facilities.
